

AI COPYWRITING STRATEGIES

Learn proven strategies to write better
copies using AI and psychology

If you don't know the **fundamentals**,
it doesn't matter what **strategies**
you learn.

They won't work because you don't
understand **why** you're following
them.

Course Overview

What We Will Learn

Actionable strategies for immediate results

Course Focus:

- Fundamentals of copywriting
- Proven strategies for quick results
- AI implementation techniques
- Actionable steps for immediate impact

Fundamentals

What is Copywriting?

Understanding the core concept before diving into strategies

Copywriting is writing
words that persuade
people to take action.

Copywriting appears **everywhere**:

- Emails
- Advertisement text
- Social media captions
- Video scripts
- Website content
- Product descriptions
- Sales pages
- Headlines and hooks

Copywriting Impact

Why Copywriting Matters?

The hidden power that most people underestimate

Wall Street Journal Success Story:

- Called 'The Tale of Two Men'
- Ran the same ad for 25 years
- Generated over \$2 billion in revenue
- One of the most profitable ads in history

Dollar Shave Club Impact:

- Launched viral ad in March 2012
- **12,000 orders** in first 48 hours
- Company sold for **\$1 billion** in 2016
- All started with amazing copy

Personal Example:

- Changed only the copy of promotional video
- **Sales tripled** almost immediately
- Same product, same offer

Copywriting Obstacles

Common Fears About Copywriting & AI

Addressing the barriers that hold people back

Fear #1

I'm NOT a **writer!**

Fear #2

AI will replace me!

AI won't replace you.

**People who know how to
use AI will replace those
who don't.**

Fear #3

It's too complex!

Why copywriting seems complex:

- People don't know the fundamentals
- Teachers aren't good at explaining it
- Missing the simple formulas
- Lack of proper structure

Tools

ChatGPT & Claude

The AI tools we'll use throughout this course

Recommended AI Tools

Claude

- Better quality responses
- Project organization feature
- Upload multiple files
- Maintains context better

ChatGPT

- More widely known
- Good for brainstorming
- Alternative perspective
- Backup option

Psychology

The 3-Brain Psychology Secret

Why most copywriters fail and how to target the right brain

**Most copywriters and
copies **fail** because they
are targeting the **wrong**
part of the brain.**

The Three Brain System:

1. 🦎 Crocodile Brain (The Ruthless Gatekeeper)
2. 🧠 Midbrain (Emotional Processor)
3. 🎓 Neocortex (Logical Analyzer)

Brain Psychology

Crocodile Brain

The Ruthless Gatekeeper

The ancient survival system that controls 95% of
purchasing decisions

Crocodile Brain Power:

- Controls 95% of purchasing decisions
- Processes information in milliseconds
- Millions of years old survival system
- Functions: Survive and reproduce

Crocodile Brain's 3-Filter System

1. Threat Assessment
2. Relevance Check
3. Energy Conservation

Filter #1

Threat Assessment

Is this dangerous to me?

Filter 1: What Crocodile Brain Does

REJECTS

- Spam/obvious sales pitch
- Aggressive or pushy language
- Too good to be true
- Unknown/untrusted source
- Poor visual presentation

ACCEPTS

- Feels familiar and safe
- Trusted source
- Conversational tone
- Professional but not salesy
- References their experience

Filter 1: Copy Examples

 BAD

URGENT! LIMITED TIME
OFFER! BUY NOW!

 GOOD

Hey Sarah, saw you
mentioned this problem...

Filter #2

Relevance Check

Is this about me and my survival needs?

Filter 2: What Crocodile Brain Does

REJECTS

- Talks about company/product first
- Uses 'we/us/our company' language
- Focuses on features vs survival
- Doesn't address immediate pain
- Feels generic/mass market

ACCEPTS

- Addresses specific situation
- Uses 'you' language extensively
- Connects to survival needs
- Feels personally relevant
- Shows understanding of their world

Filter 2: Copy Examples

 BAD

Our software has 50+ features...

 GOOD

You're tired of losing clients because your proposals look amateur...

Filter #3

Energy Conservation

Is this worth my mental energy?

Filter 3: What Crocodile Brain Does

REJECTS

- Requires too much thinking
- Complex concepts
- Multiple steps to understand
- Feels like work to process
- No clear next step

ACCEPTS

- Simple and easy to understand
- Clear and obvious benefit
- Minimal mental effort required
- One clear next step
- Promises efficiency/time saving

Filter 3: Copy Examples

 BAD

Our proprietary algorithm
leverages machine learning...

 GOOD

Click [here](#) to fix this problem in
5 minutes

Crocodile Brain's 3-Filter System

1. Threat Assessment
2. Relevance Check
3. Energy Conservation

Midbrain: The Emotional Amplifier

Creates desire and urgency through emotional processing

Midbrain Characteristics:

- Younger than crocodile brain
- Creates desire and urgency
- Reacts to strong feelings

Mid Brain's 3 areas to cover:

1. Feeling
2. Memory
3. Acting Time

Mid-Brain Question #1

**How strongly do I feel
about this?**

Required Elements for Midbrain:

1. **Strong emotional triggers** (fear, greed, pride, love, anger, hope)
2. **Personal stakes** (what happens if I don't act)
3. **Vivid imagery** and sensory details
4. **Contrast** (before vs after)
5. **Social proof** (others like me succeeded/failed)

Mid-Brain Question #2

**What does this remind
me of?**

Memory & Association Leverage:

1. **Past experiences** (success/failure stories)
2. **Cultural references** they understand
3. **Familiar scenarios** and situations
4. **Aspirational models** (who they want to become)
5. **Fear-based memories** (what they want to avoid)

Mid-Brain Question #2

When do I need
to act on this?

Urgency & Scarcity Triggers:

1. **Limited time** (deadlines, expiration)
2. **Limited quantity** (scarcity, exclusivity)
3. **Social pressure** (others are acting)
4. **Competitive advantage** (getting ahead)
5. **Deteriorating situation** (getting worse over time)

Midbrain Copy Examples

LOGICAL

This tool increases
productivity by 23%

EMOTIONAL

While your competitors work
weekends, you'll be at your
kid's soccer game

Midbrain Copy Examples

 **VAGUE**

Improve your business

 **SPECIFIC**

Stop lying awake at 3 AM
wondering if you can make
payroll

Midbrain Copy Examples

FEATURES

Advanced encryption
technology

EMOTIONAL

Sleep peacefully knowing
your family's financial data is
bulletproof

Mid Brain's 3 Questions:

1. How strongly do I feel about this?
2. What does this remind me of?
3. When do I need to act on this?

Crocodile Brain's 3-Filter System

1. Threat Assessment
2. Relevance Check
3. Energy Conservation

Mid Brain's 3 areas to cover:

1. Feeling
2. Memory
3. Acting Time

Neocortex: The Logical Justifier

Justifies decisions already made by crocodile brain

Neocortex Characteristics:

- Youngest brain of these there part
- Takes 30+ seconds for full processing
- Justifies decisions already made by crocodile brain
- Motto: 'Help me justify this to myself and others'

**Justifies decisions already
made by crocodile brain**

Logical Proof Structure Needs:

1. Facts, statistics, and data
2. Testimonials and case studies
3. Guarantees and risk reversals
4. Feature explanations
5. Comparison charts
6. Expert endorsements

Social Justification Needs:

1. **Social proof** (others like them chose this)
2. **Authority endorsements** (experts approve)
3. **Risk mitigation** (guarantees, returns)
4. **Logical reasoning** they can share
5. Professional **credibility**

Brain-Optimized Copy Structure

1. **Hook** (Crocodile Brain)
2. **Emotional Story** (Midbrain)
3. **Logical Proof** (Neocortex)
4. **Risk Reversal** (All Brains)
5. **Call to Action** (Crocodile Brain)

Process

The Purchase Decision Process

Step-by-step brain sequence for buying decisions

Brain Decision Flow

1. Threat Assessment
2. Relevance Check
3. Energy Conservation

Crocodile Brain Filters

Midbrain Feels

Neocortex Justifies

Crocodile Brain Acts

1. Logical Proof
 - a. Facts
 - b. Testimonials
 - c. Guarantees
 - d. Features
 - e. Comparison
2. Social Justification
 - a. Social proof
 - b. Endorsements
 - c. Risk mitigation
 - d. Reasoning

The crocodile brain **filters** at the beginning AND controls the **final action**.

But it needs emotional fuel from midbrain and logical ammunition from neocortex.

Complete **Brain-Optimized** Copy Example:

Opening:

Hey [Name], noticed you're struggling with [problem].
Had same issue 6 months ago...

Body:

Picture this: It's 11 PM Sunday, family's asleep, you're stressing about Monday...

Proof:

Here's how it works:

- Step 1,
- Step 2,
- Step 3.

Sarah got [result] in [timeframe]...

Close:

Click below to get started. Implementing by tomorrow morning.

Mistakes

Common **Brain-Flow** Mistakes

What kills your copy before it even starts

Mistake 1: Starting with Logic

 BAD

Our patented system increases ROI by 800%...

 GOOD

You're tired of watching competitors succeed while you struggle...

Mistake 2: **Skipping Emotional** Processing

BAD FLOW

Problem → Solution → Features → Buy

GOOD FLOW

Problem → Emotional Stakes → Solution → Proof → Buy

Mistake 3: Making Crocodile Brain **Work Too Hard**

 **BAD**

Leverage our omni channel optimization platform...

 **GOOD**

Get more customers without working harder

Mistake 4: **No Social Proof** for Neocortex

 **BAD**

Trust us, this works

 **GOOD**

Here's exactly how John got results + his testimonial

Framework

AI Copywriting Success Formula

The 5-part formula for successful copy with AI

The 5-Part Success Formula:

- **Avatar** (Know your target audience)
- **Emotion** (Convince midbrain with feelings)
- **Story** (Create relatability and connection)
- **Placement** (Adapt for specific platforms)
- **Goal** (Define clear objective)

AI helps us write better copy, but only when we **provide all the essential elements**. Without the formula, AI just gives us generic responses.

Foundation

Know Your Avatar

Understanding who you're writing for is the key to
copywriting success

Most people don't pay attention to this part because they think copywriting is all about words and writing.

But behind that text, it's actual psychology and marketing.

Core Concept

Know Who You Are Writing For

Why knowing your target audience
makes or breaks your copy

**What happens when you
write copy without knowing
who will read it?**

The Difference Knowledge Makes

✗ WITHOUT AVATAR KNOWLEDGE

- You guess what their problem is
- They think: 'This isn't my problem'
- Marketing gets no results
- Copy doesn't work

WITH AVATAR KNOWLEDGE

- You know exactly what their problem is
- They think: 'This is exactly for me'
- Marketing drives results
- Copy converts

For copywriting, demographics is not enough.

You have to go deeper into emotions, pain points, dreams, and experiences.

What You Must Know About Your Avatar:

- Their specific problems and pain points
- How they live day-to-day
- Their income and education level
- Their relationship status
- What issues they face at work/business
- Their dreams and aspirations
- What they hate and fear
- Their past experiences with similar solutions

The New Year's Message Test

A perfect example of generic vs. specific targeting

Research Strategy

Avatar Research Strategy

How to gather deep insights about your target audience

We build an imaginary person with the characteristics of the majority of our target audience.

A group of people sharing the same characteristics, pain points, interests, challenges, dreams and goals.

Where to Find Avatar Research:

- Amazon product reviews (customer feedback)
- Reddit discussions and comments
- Facebook groups related to your topic
- Company market research (if available)
- Customer support emails and feedback
- Competitor reviews and testimonials

Here's a golden tip: Gather all the customer feedbacks and give it to AI.

Ask AI to analyze it to understand what kind of people are writing these feedbacks.

AI Prompt for **Avatar Research** Analysis

Analyze these customer reviews and feedback to create a detailed buyer persona profile:

[Insert customer reviews/feedback here]

Please identify:

1. Demographics (age, gender, income level, education)
2. Psychographics (values, interests, lifestyle)
3. Main pain points and challenges
4. Goals and aspirations
5. Language patterns they use
6. Emotional triggers (what makes them excited/frustrated)
7. Common objections or concerns
8. Past experiences with similar products/services

Create a comprehensive avatar profile with a name and detailed characteristics that represent the majority of these customers.

Practical Application

The **One-Person** Principle

Why writing for everyone means writing for no one

When we are talking about avatar or buyer persona, we are talking about an **imaginary person** with the characteristics of the majority of our target audience.

Creating Your Avatar Profile:

- Select a specific name (Tom, Sarah, etc.)
- Define age and basic demographics
- List their interests and hobbies
- Identify their main problems
- Describe their dreams and goals
- Note their communication style
- Print it and put it in front of you when writing

Gaming Mouse Avatar Characteristics:

- Age range: 18-34 years old
- Interested in video games
- Values RGB lighting and custom designs
- Mostly single (not married)
- Cares about performance and precision
- Active in gaming communities
- Willing to invest in quality equipment

We are not targeting people who are 60 years old. We focus on the majority of customers who share the same characteristics, pain points, interests, challenges, dreams and goals.

Validation

Verify with Survey

How to validate your avatar assumptions with real data

**What if you can't find customer
feedback online for your specific
product or service?**

**This is not something that we can
do guesswork or have doubt about.
We must be 100% sure **who we are
writing for**. This is important.**

Why **Survey Validation** is Critical:

- Verify your research assumptions
- Get direct feedback from real people
- Avoid writing for wrong audience
- Ensure 100% accuracy in targeting
- Reduce risk of failed campaigns

AI Prompt for Survey Creation

Create a comprehensive survey to validate my buyer persona for [your product/service/topic].

My current avatar assumptions:

- [List your avatar characteristics]
- [List assumed pain points]
- [List assumed goals/desires]

Please create:

1. 8-10 survey questions that will validate these assumptions
2. Questions that reveal true pain points and desires
3. Questions about their current challenges
4. Questions about their preferred solutions
5. Demographic validation questions

Make the questions engaging and specific enough to get honest, detailed responses. Also suggest 3 different ways I can distribute this survey to reach my target audience in [your industry/niche].

- ☐ Blog content
- ☐ Product descriptions
- ☐ Press releases/PR content
- ☐ Don't write copy currently but need to
- ☐ Other: _____

Pain Points & Challenges

5. What's your BIGGEST frustration when it comes to writing copy right now? (Open text - be specific about what keeps you up at night)

6. How long does it typically take you to write a single email marketing campaign (subject line + email copy)?

- ☐ Less than 30 minutes
- ☐ 30 minutes to 1 hour
- ☐ 1-2 hours
- ☐ 2-4 hours
- ☐ More than 4 hours
- ☐ I avoid writing emails because it takes too long
- ☐ I don't write email campaigns

7. Which statement resonates most with you?

- ☐ "I know what to say but struggle to write it effectively"
- ☐ "I stare at a blank page and don't know where to start"
- ☐ "My copy doesn't convert and I don't know why"
- ☐ "I spend way too much time writing copy"
- ☐ "I need to learn AI or I'll fall behind my competition"
- ☐ "I write okay copy but want to write great copy"

Survey **Distribution** Strategies:

- Google Forms (free and easy to use)
- Visit relevant physical locations (gyms, offices, etc.)
- Online communities and forums
- Social media groups
- Email to existing customer base
- Partner with complementary businesses

Practice

Live Avatar Research Challenge

Your action steps for immediate implementation

Avatar Research Action Plan

1. Pick your niche and identify similar products/services
2. Find reviews and customers feedbacks on platforms like Amazon, Reddit, Udemy, ...
3. Use AI prompt to analyze all feedback and create avatar profile
4. Create detailed persona with name, demographics, and characteristics
5. Design a validation survey using AI prompt
6. Send survey to as many people as you can who match your avatar
7. Analyze responses and refine your avatar profile

AI Prompt for Finding Research Targets

I need to research my target audience for [your product/service/topic] but I'm not sure where to find them online.

Please suggest:

1. 5 specific subreddits where my target audience discusses related topics
2. 5 Facebook groups or communities they would join
3. 3 Amazon product categories I should research for reviews
4. 3 online platforms or forums specific to my industry
5. 5 keywords I should search for to find relevant discussions

For each suggestion, explain why this source would provide valuable avatar insights and what specific information I should look for in their posts/comments/reviews.

What to **Extract** from Research:

- Exact language and phrases they use
- Specific problems they complain about
- Solutions they've tried before
- What frustrated them about past experiences
- What they wish existed but can't find
- How they describe their ideal outcome
- Emotional words they use (excited, frustrated, worried)

Implementation

Write for **This Person** Only

Techniques for keeping your avatar in mind while writing

Avatar-Focused Writing Techniques:

- Keep avatar profile visible while writing
- Use their specific language patterns
- Address their exact objections and concerns
- Reference their world and experiences
- Write like you're talking to them personally
- Test each sentence: 'Would [Avatar Name] relate to this?'

**Same as the New Year's
messages - when you know
everything about your avatar,
you can write copy that feels
personally crafted just for them.**

Ready to Build Your Perfect Avatar?

Use the AI prompts and research strategies to create your detailed buyer persona

Avatar Takeaways

- ✓ Demographics alone are not enough - you need psychographics
- ✓ AI can analyze customer feedback to reveal avatar insights
- ✓ Always validate assumptions with surveys before writing
- ✓ Write for one specific person, not everyone
- ✓ Use exact language patterns your avatar uses

Psychology

Understand What You're **Selling**

The emotions your customers are really buying

We must understand **what emotion we are offering to our reader. This is crucial for persuading the midbrain.**

Every product you sell targets one of **eight core emotions**.

When you identify which emotion connects to your product, you can **strategically place that emotion** into your copy and successfully **persuade the midbrain**.

The Modern Copywriter's Emotional Checklist

What People Really Buy Beyond Your Product

Use this checklist to tap into the core emotions that drive every purchase decision.

Core Emotional Drivers

These are the fundamental human desires that motivate people to take action. Every successful piece of copy taps into at least one of these core emotional drivers.

☐ 🏆 Status & Recognition

"I want to feel important and respected"

People want to be seen as successful, smart, and ahead of the curve by others who matter to them.

COPY TRIGGERS

"Join the elite group of...," "What successful people know...," "Be the expert your colleagues come to..."

☐ 💰 Financial Security

"I want to stop worrying about money"

Freedom from financial stress, ability to afford what they want, and peace of mind about the future.

COPY TRIGGERS

"Never worry about money again...," "Add \$5K per month to your income...," "Recession-proof your future..."

☐ ⚡ Time & Efficiency

"I want my life to be easier and faster"

Eliminating tedious tasks, getting results without endless effort, and having more time for what matters.

COPY TRIGGERS

"Cut your workload in half...," "Get results in 10 minutes...," "Never waste time on [task] again..."

☐ ❤️ Relationships & Connection

"I want to be loved and belong"

Deeper connections with family, friends, or community. Being valued and appreciated by people who matter.

COPY TRIGGERS

"Bring your family closer...," "Finally feel understood...," "Build relationships that last..."

☐ 🧠 Confidence & Competence

"I want to feel capable and sure of myself"

Mastering skills, overcoming insecurities, and feeling confident in important situations.

COPY TRIGGERS

"Feel confident in any situation...," "Master this skill in 30 days...," "Never feel insecure about [situation] again..."

☐ 🏆 Growth & Achievement

"I want to become better and accomplish something meaningful"

Personal development, reaching goals, and feeling proud of accomplishments.

COPY TRIGGERS

"Achieve what you thought was impossible...," "Finally reach your goal of...," "Become the person you've always wanted to be..."

☐ 🛡️ Safety & Peace of Mind

"I want to protect myself and my family from threats"

Avoiding risks, preventing problems, and feeling secure about the future.

COPY TRIGGERS

"Protect your family from...," "Never worry about [threat] again...," "Sleep peacefully knowing..."

☐ 😊 Pleasure & Enjoyment

"I want to feel good and enjoy life"

Experiencing joy, comfort, and satisfying pleasures without guilt.

COPY TRIGGERS

"Indulge yourself with...," "Experience the joy of...," "Treat yourself to..."

The **8 Core Emotions** People Actually Buy:

1. Status and recognition
2. Financial security
3. Time and efficiency
4. Relationship and connection
5. Confidence and competence
6. Growth and achievement
7. Safety and peace of mind
8. Pleasure and enjoyment

Emotion #1

Status & Recognition

I want to feel important and respected

People want to be **seen as**
successful, smart, and
ahead of the curve by
others who matter to
them.

Status & Recognition Examples:

- Business owner buying premium software to appear more professional to clients
- Someone taking an online course to gain expertise they can share on LinkedIn
- Students uploading course certificates to social media
- Google certified professionals showcasing their credentials

Real Example:

When I search my name on LinkedIn, I see **tons of people** who **uploaded their certificates** from my courses. They're seeking **status and recognition** through **visible expertise**.

Status & Recognition Copy Triggers:

- Join the elite group of...
- What successful people know...
- Be the expert your colleagues come to...
- Become the go-to authority in your field...
- Stand out as the professional who gets results...
- Get the respect you deserve...

Powerful Script Example:

'Six months from now, you'll be the **person your colleagues come to** when they need expertise. They'll look at you like you're **doing magic.**'

Real-World Example:

Apple's '**Think Different**' campaign targeted status and recognition. The message **wasn't about computer features**—it was about being seen as a **creative, innovative person who thinks differently** from the crowd.

Apple's Actual Copy:

'Here's to the **crazy ones**. The **misfits**. The **rebels**. The troublemakers. The round pegs in the square holes. The ones who **see things differently**...Because the people who are crazy enough to think they can **change the world**, are the ones who do.'

Rolex Headline:

'A Crown for Every Achievement.'

This luxury watch headline doesn't mention time accuracy, materials, or craftsmanship. Instead, it positions each Rolex as a **symbol of personal accomplishment** that **others will recognize and respect.**

AI Prompt: Create **Status & Recognition** Copy

Create a headline for [your product] that targets status and recognition emotion. Focus on how owning this product makes the customer appear successful, smart, or respected by others. Don't mention product features. Target audience: [describe your avatar]. Example format: 'Join the elite group of [target audience] who [desired status outcome]'

Emotion #2

Financial Security

I want to stop worrying about money

This means freedom from **financial stress**, the ability to afford what they want, and peace of mind about the future.

When you teach a high-income skill, you're not selling the skill—you're selling financial security.

Financial Security Examples:

- Investing in a course to start a side business for extra income
- Buying insurance to protect against catastrophic losses
- Learning copywriting to command higher freelance rates
- Adding new skills to increase service prices

Revisions on 3D Renders	@tiffanypatterson	\$150.00 USD	about 10 years ago	\$350.00 USD	Complete
Turbine Earbuds 2	@keebloo	\$10.00 USD	about 10 years ago	\$230.00 USD	Complete
Batch 4 - exhibit display renders	@tiffanypatterson	\$150.00 USD	about 10 years ago	\$150.00 USD	Complete
Batch 3 - Exhibit Display Renders	@tiffanypatterson	\$200.00 USD	about 10 years ago	\$200.00 USD	Complete
Additional batch of exhibition designs	@tiffanypatterson	\$150.00 USD	about 10 years ago	\$150.00 USD	Complete
Do some 3D Modelling	@tiffanypatterson	\$150.00 USD	about 10 years ago	\$150.00 USD	Complete
Deleted project by @jjackson185	@jjackson185		about 10 years ago		Deleted
3D pictures/modelling for iphone adapter and cable	@kromi	\$99.00 USD	over 10 years ago	\$6,169.00 USD	Complete

Financial Security Copy Triggers:

- Never worry about money again...
- Add \$5,000 per month to your income...
- Recession-proof your future...
- Add \$100 per day to your income...
- Build multiple income streams...
- Achieve financial freedom in...

Real-World Example:

Robinhood (a popular stock trading app) uses '**Investing for Everyone**' campaign targeting financial security.

Robinhood's Actual Copy:

'Investing for Everyone. Commission-free stock trading. Build your portfolio starting with just \$1.'

Notice how this targets the financial security emotion by **making investing accessible**, not exclusive to wealthy people.

Airbnb Host Copy Example:

'Earn \$1,000+ per month by renting your spare room. Join 4+ million hosts worldwide.'

This doesn't focus on the platform features or booking system—it targets the specific **financial outcome and security** that hosting provides.

Emotion #3

Time & Efficiency

I want my life to be easier and faster

This means eliminating tedious tasks, getting results without endless effort, and having more time for what truly matters in life.

Slides Generator Example:

```
1 // ===== CONFIGURATION =====
2 const COLORS = {
3   text: 'FFFFFF',
4   highlighted: '#c5a572',
5   subtitle: '#c9d0da',
6   winGreen: '#5bb98c',
7   failRed: '#d16d7a',
8   promptBackground: '#4a5568',
9   promptText: 'FFFFFF'
10 };
11
12 const TITLE_FONT = {
13   size: 60,
14   weight: 'bold',
15   fontFamily: 'Montserrat' // Add fontFamily here
16 };
17
18 const FONTS = {
19   title: { size: 48, weight: 'bold' },
20   subtitle: { size: 22, weight: 'normal' },
21   bigStatement4Lines: { size: 36, weight: 'bold' },
22   bigStatement2Lines: { size: 48, weight: 'bold' },
23   bulletHeader: { size: 30, weight: 'bold' },
24   body: { size: 24, weight: 'normal' },
25   bodySmall: { size: 22, weight: 'normal' },
26   bodyXSmall: { size: 20, weight: 'normal' },
27   prompt: { size: 22, weight: 'normal' }
28 };
29
```

Speechifyapp: An app that reads everything for you.

Ad Copy:

'Now you should start thinking about what you want to do with all those **hours I'm saving you.**'

He wasn't selling an app—he was **selling time.**

More Time & Efficiency Examples:

- AI tools that write social media posts in minutes instead of hours
- Meal delivery services that eliminate shopping and cooking time
- Services that pick up clothes, wash, iron, clean, bring back to your door
- Automation tools that handle repetitive tasks

Time & Efficiency Copy Triggers:

- Cut your workload in half...
- Get results in 10 minutes...
- Never waste time on [task] again...
- Save 5 hours every week...
- Automate your [process] completely...
- Work smarter, not harder...

Uber's push notifications target time efficiency with messages like 'Your ride is 2 minutes away' and 'Driver arriving now.' They're not selling transportation—they're selling the elimination of **waiting time** and uncertainty.

Emotion #4

Relationships & Connection

I want to be loved and belong

**This means deeper connections
with family, friends, or community.
Being valued and appreciated by
the people who matter most in
your life.**

Relationships & Connection Examples:

- Communication courses to improve marriage relationships
- Parenting guides to connect better with children
- Social skills training to make friends and network effectively
- Dating apps and social media platforms designed for connection

Relationships & Connection Copy Triggers:

- Bring your family closer...
- Finally feel understood...
- Build relationships that last...
- Connect on a deeper level...
- Strengthen your bond with...
- Create meaningful connections...

During the pandemic, Zoom's 'Stay Connected' campaign didn't focus on video quality or technical features.

Instead, their messaging targeted the deep human need for connection during isolation.

Zoom's Actual Copy:

'Bring loved ones together, no matter how far apart. Host up to 100 participants. Never miss a family moment again.'

Notice how every line focuses on human connection, not technology.

AI Prompt: Create Relationships & Connection Copy

Write copy for [your product] that targets relationships and connection emotion. Focus on bringing people together, understanding each other, or feeling loved and valued. Target audience: [describe your avatar].
Example format: '[Action] that brings you closer to [important people in their life]' or 'Finally feel [connection emotion] with [relationship type]'

Emotion #5

Confidence & Competence

I want to feel capable and sure of myself

This means mastering skills,
overcoming insecurities, and feeling
confident in important situations that
matter to your success.

Confidence & Competence Examples:

- Public speaking courses to present without fear
- Fitness programs to feel stronger and more attractive
- Technical training to become an expert in your field
- Job interview training with role-play practice

Confidence & Competence Copy Triggers:

- Feel confident in any situation...
- Master this skill in 30 days...
- Never feel insecure about [situation] again...
- Become the expert everyone trusts...
- Overcome your fear of...
- Build unshakeable confidence...

Nike's 'Just Do It' campaign targets confidence and competence. The copy isn't about shoe technology or athletic performance—it's about overcoming self-doubt and feeling capable of achieving your goals.

Nike's Full Copy:

'Just Do It. Find your greatness. Don't let anyone tell you that **you can't do something.'**

This messaging builds confidence and competence, making people feel capable of achieving anything they set their mind to.

Emotion #6

Growth & Achievement

I want to become better and accomplish
something meaningful

This means **personal development**,
reaching important goals, and feeling
proud of meaningful accomplishments
that matter to your future.

Growth & Achievement Examples:

- Learning new skills to advance their career
- Building a business they can be proud of
- Achieving fitness goals they've struggled with for years

Growth & Achievement Copy Triggers:

- Achieve what you thought was impossible...
- Finally reach your goal of...
- Become the person you've always wanted to be...
- Make a meaningful impact on...
- Level up your [skill/life/career]...
- Create a legacy you're proud of...

Duolingo's achievement system targets growth and accomplishment with messages like '**Don't break your streak!**' and '**You're on fire!**'.

The copy doesn't focus on language learning—it targets the pride of consistent achievement.

Duolingo's Actual Copies:

- **You're on a 47-day streak! Don't break it now!**
- **Congratulations! You've completed your daily goal.**

Every notification focuses on **personal achievement** and **growth**, not **grammar** or **vocabulary**.

AI Prompt: Create Growth & Achievement Copy

Write copy for [your product] that targets growth and achievement emotion. Focus on personal development, reaching goals, or meaningful accomplishments. Target audience: [describe your avatar]. Example format: 'Finally achieve [important goal] and become [desired identity]' or 'Make a meaningful impact on [important cause/people]'

Emotion #7

Safety & Peace of Mind

I want to protect myself and my family from threats

This means **avoiding risks, preventing problems** before they happen, and feeling secure about the future for yourself and your loved ones.

Safety & Peace of Mind Examples:

- Home security systems to protect family and property
- Backup software to prevent losing important files
- Health supplements to avoid future medical problems
- Insurance policies for unexpected emergencies

Safety & Peace of Mind **Copy**

Triggers:

- Protect your family from...
- Never worry about [threat] again...
- Sleep peacefully knowing...
- Safeguard your [assets/future/family]...
- Eliminate the risk of...
- Secure your [important thing] forever...

Ring Doorbell's '**Always Home**'
campaign targets safety and peace of
mind.

The copy doesn't focus on camera
technology.

Ring's Actual Copy:

Always Home. See, hear and speak to visitors from anywhere. Motion-activated alerts sent to your phone.

Every feature mentioned connects to safety and peace of mind, not technical specifications.

AI Prompt: Create Safety & Peace of Mind Copy

Write copy for [your product] that targets safety and peace of mind emotion. Focus on protection, risk elimination, or security for family/assets. Target audience: [describe your avatar]. Example format: 'Protect your [important thing] from [specific threat]' or 'Sleep peacefully knowing [security outcome]'

Emotion #8

Pleasure & Enjoyment

I want to feel good and enjoy life

**This means experiencing joy,
comfort, and satisfying pleasures
without guilt. Living life to the
fullest and enjoying the rewards of
your hard work.**

Pleasure & Enjoyment Examples:

- Vacation packages for relaxation and adventure
- Gourmet food experiences for sensory pleasure
- Entertainment subscriptions for enjoyment and escape
- Beach resorts and luxury experiences

Restaurant Example: When you go to a restaurant for delicious food, you're not just buying the meal. You're buying the **feeling of pleasure** and **enjoyment** that comes with the experience.

Pleasure & Enjoyment Copy Triggers:

- Experience the joy of...
- Treat yourself to...
- Enjoy the luxury of...
- Escape from everyday stress with...
- Reward yourself with...

Real-World Example: Netflix's campaigns target pleasure and enjoyment. Copy like **'Your next obsession awaits'** and **'Weekend plans: sorted'** doesn't focus on streaming technology—it targets the guilty pleasure of entertainment indulgence.

AI Prompt: Create Pleasure & Enjoyment Copy

Write copy for [your product] that targets pleasure and enjoyment emotion. Focus on joy, relaxation, indulgence, or escaping stress. Target audience: [describe your avatar]. Example format: 'Indulge in [pleasurable experience]' or 'Treat yourself to [enjoyable outcome] you deserve'

Important:

Each product may target **multiple emotions, not just one. You must identify the main emotion your product sells, plus two or three secondary emotions that support it.**

Fear Psychology

Fear Avoidance Checklist

What people desperately want to avoid

Fear Avoidance Checklist

Understanding what people desperately want to avoid is just as powerful as knowing what they desire. These fears often drive purchasing decisions more strongly than positive emotions.

- | | |
|--|--|
| ☐ 💸 Financial Loss
Going broke or losing money on bad investments
<i>"Never lose money on Facebook ads again..."</i> | ☐ 🕒 Wasted Time
Spending months on something that doesn't work
<i>"Skip the 6-month learning curve..."</i> |
| ☐ 😳 Embarrassment
Looking foolish in front of peers or family
<i>"No more awkward networking moments..."</i> | ☐ 🏃 Missing Out
Being left behind while others succeed
<i>"While your competitors dominate, you'll be..."</i> |
| ☐ 🤯 Being Overwhelmed
Too much complexity or information
<i>"Simple enough for complete beginners..."</i> | ☐ 💡 Making Wrong Decisions
Choosing the wrong solution and regretting it
<i>"100% money-back guarantee - zero risk..."</i> |

Quick Emotion Detection Questions

Ask yourself these questions to uncover the deeper emotional motivations of your target audience and craft more compelling copy.

- ☐ What does my customer secretly wish they could tell people about themselves?
- ☐ What keeps them awake at 3 AM worrying?
- ☐ What would make them feel like a hero to their family/peers?
- ☐ What situation makes them feel embarrassed or inadequate?
- ☐ If they could wave a magic wand, what would their life look like?

Your Next Copy Project

Follow these steps to apply the emotional framework to your next copywriting project and create more persuasive, compelling content.

- 1 ☐ Circle 2-3 emotions from this checklist that your product addresses
- 2 ☐ Write one sentence for each emotion showing the transformation
- 3 ☐ Identify the #1 fear your customer has about their current situation
- 4 ☐ Lead your copy with the strongest emotion, support with logic
- 5 ☐ End with fear avoidance (guarantee, risk reversal, social proof)

The 6 Core Fears People Avoid:

- Financial loss
- Wasted time
- Embarrassment
- Missing out
- Being overwhelmed
- Making wrong decisions

These fears connect directly to our positive emotions. Financial security becomes financial loss. Time efficiency becomes wasted time. Status becomes embarrassment.

We can approach emotions from the negative side for **stronger impact.**

Fear Avoidance Copy Examples:

- **Financial loss:** "Never lose money on Facebook ads again"
- **Wasted time:** "Skip the six-month learning curve"
- **Embarrassment:** "No more awkward networking moments"
- **Missing out:** "While your competitors dominate, you'll be..."
- **Being overwhelmed:** "Simple enough for complete beginners"
- **Making wrong decisions:** "100% money-back guarantee—zero risk"

Charles Schwab's campaign:

Don't let fees eat your returns

This headline targets the fear of losing money to hidden costs. They're not selling investment tools—they're selling protection from financial loss.

E-Learning Platform: 'Learn faster with bite-sized lessons' and 'Skip the fluff, get to the good stuff.'

This copy targets the fear of wasting time on lengthy, inefficient learning. They're selling time protection, not just education.

Fear Example - Embarrassment: Old Spice's 'Don't let your deodorant fail you' targets the fear of social embarrassment.

The copy focuses on avoiding awkward situations rather than describing the product's scent or ingredients.

Golden Tip:

To convince someone to take action, focus on what **they have to lose**. People respond much stronger to pain than gain. Use this to drive immediate action.

Key Takeaways

- ✓ People buy emotions, not products, identify your primary emotion
- ✓ Most products satisfy 2-3 emotions, not just one
- ✓ Fear avoidance often drives action more than positive emotions
- ✓ Lead with emotion first, then justify with logical features

Master emotions, master persuasion.

Platform Strategy

Copy Placement Essentials

Simple strategies for adapting your copy
across different platforms

When you change the placement,
everything else changes.

People on YouTube have **different characteristics** and intentions
compared to people on TikTok or on
your email list.

Some people follow good marketing strategies but get no results. Why?

Because they **didn't consider placement**—they're applying same strategies on all platforms.

What people expect to see on platforms matters. When you give them **what they expect**, it's more acceptable.

When you don't, you'll have a hard time getting results.

Framework

The Copy Triangle System

Three questions that guide all your platform decisions

Platform Type
(**Where**)

Copy
Triangle
System

Intent
(**Why**)

Action
(**What**)

The Three Essential Questions:

- **WHERE** are they? (Platform context)
- **WHY** are they there? (Intent level)
- **WHAT** can they do? (Available actions)

**Answer these three questions
every time you write copy, and
you'll have a much higher chance
of writing copy that actually works.**

The **Four Platform** Categories:

- Entertainment Platforms
- Social Platforms
- Professional Platforms
- Direct Platforms

All platforms where we can do copywriting and digital marketing are summarized into these four categories.

Master these four, and you can adapt to any platform.

Platform Type #1

Entertainment Platforms

Entertain me or I scroll

Entertainment Platform Examples:

- TikTok
- Instagram Reels
- YouTube Shorts
- ...

**People's mindset on
entertainment platforms:**

'Entertain me or I scroll.'

Intent level is very low.

They're not there to purchase, learn, or invest. They're there to get entertained and spend time browsing.

Entertainment Platform Structure:

1. **Hook** (0-3 seconds): Stop the user scroll
2. **Value** (3-45 seconds): Deliver entertainment with tips or stories
3. **Soft CTA** (45-60 seconds): Easy actions like 'link in bio'

You have exactly 3 seconds to stop the user scroll. After that, even if you deliver great value, it must lean toward entertainment with stories and engaging content.

Why soft call-to-actions?

People hold their phone with one hand while scrolling.

They may accept simple actions, not complicated tasks that require effort.

Entertainment Platform Do's:

- Pattern interrupt in first 3 seconds
- Entertainment value required
- Soft call-to-actions only
- Visual storytelling

Entertainment Platform Don'ts:

- Hard selling ("Buy now!")
- Long explanations
- Multiple calls-to-action
- Boring talking heads

Entertainment Platform Copy Examples

BAD EXAMPLE

Our copywriting course has 47 modules and will teach you...

GOOD EXAMPLE

I made \$10K last month writing one email. Here's the subject line...

AI Prompt: Create Entertainment Platform Copy

Create a 60-second script for [platform] about [topic]:
Hook (0-3s): Surprising result or controversial statement, Value (3-45s): Share story with entertainment value, Soft CTA (45-60s): Simple action like 'link in bio'. Target audience: [avatar]. Keep tone casual and engaging with visual storytelling elements.

Platform Type #2

Social Platforms

Show me something interesting

Social Platform Examples:

- Facebook posts
- Instagram posts
- Twitter/X
- Social media feeds

About 5 years ago, I took the IELTS exam and my reading, which was the weakest of all, got a score of 6. My reading speed was always very slow.

I took the IELTS again 3 years ago, but my reading score was 9 out of 9, and I got 10 minutes of extra time 😊 .

The @elevateapp app helped me a lot, and I still use it to improve my language and math. I definitely recommend using it.

696

1.7K

Intent level is medium.

Users are looking for value and connection. They want to see something interesting and meaningful.

Social Platform Structure:

1. **Hook:** Personal story or controversial statement
2. **Value:** 3-5 actionable tips or insights
3. **Engage:** Questions or soft call-to-action

About 5 years ago, I took the IELTS exam and my reading, which was the weakest of all, got a score of 6. My reading speed was always very slow.

I took the IELTS again 3 years ago, but my reading score was 9 out of 9, and I got 10 minutes of extra time 😁 .

Social Platform Do's:

- Lead with personal stories
- Provide genuine value
- Ask engagement questions
- Use conversational tone

Social Platform Don'ts:

- Corporate speak
- Only talking about your product
- No engagement hook
- Walls of text

Social Platform Copy Examples

BAD EXAMPLE

We are excited to announce our new copywriting course features...

GOOD EXAMPLE

Yesterday my client fired me. Said my copy was 'too basic.' He was right. Here's what I learned...

Notice the good example:

- **Hook** ('client fired me'),
- **Story** (copy was basic),
- **Value** promise ('here's what I learned').

Same message, completely different approach.

AI Prompt: Create Social Platform Copy

Write a social media post about [topic] using Story-Value-Engage structure: Hook with personal story or experience, Value with 3-5 actionable insights, Engage with question to encourage comments. Target audience: [avatar]. Tone: conversational like talking to a friend.

Real-life example:

Write a social media post about [topic: how I started to teach on Udemy (the story is below)] using Story-Value-Engage structure: Hook with personal story or experience, Value with 3-5 actionable insights, Engage with question to encourage comments. Target audience: [avatar: Attached below]. Tone: conversational like talking to a friend.

The result:

Pouya Eti - Digital Marketing Expert

5 minutes ago · 🌐

Spring 2016: I stumbled across Udemy and had a crazy idea...

I'd just taken some marketing courses and thought, "What if I teach this stuff to learn it better?" Everyone said I was nuts. Zero teaching experience. No fancy equipment. Just me, a PDF, and pure determination.

Took me 4 months to create that first course (I had NO clue what I was doing 😅). Published it in August 2016 and made... wait for it... \$10 my first month. But that \$10 changed everything.

Here's what I learned that you can apply today:

- ✅ Teach to master: When you teach something, you learn it 10x deeper. Create content about what you're learning.
- ✅ Start messy: My first course was just talking over a PDF. Perfect is the enemy of done. Your first attempt doesn't need Hollywood production.
- ✅ Think win-win-win: I got better at marketing, made money, AND helped others. Find opportunities where everyone benefits.
- ✅ Small wins compound: That \$10 first month led to 600,000+ students across all my courses. Every expert was once a beginner.
- ✅ Document your journey: Your struggles today are someone else's teaching material tomorrow.

The best part? Teaching forced me to really understand what I was learning instead of just consuming information.

What skill are you learning right now that you could teach to someone else? Drop it in the comments - I bet you know more than you think! 📌

[#OnlineCourses](#) [#Teaching](#) [#SkillBuilding](#) [#Entrepreneurship](#)

Platform Type #3

Professional Platforms

Help me advance professionally

Professional Platform Examples:

- LinkedIn
- Industry forums
- Business networks
- Career-focused platforms

Intent level is high.

People are focused on career and business advancement. They want professional growth and business outcomes.

Professional Platform Structure:

1. **Authority**: Establish credibility with results or credentials
2. **Insight**: Share professional wisdom and frameworks
3. **Credible CTA**: Professional development offers

Professional Platform Do's:

- Lead with results or credentials
- Share frameworks and systems
- Professional tone but human story
- Focus on business outcomes

Professional Platform Don'ts:

- Personal life details
- Entertainment over education
- Unprofessional CTAs

Professional Platform Copy Examples

BAD EXAMPLE

OMG guys, this
copywriting hack is
insane!

GOOD EXAMPLE

The overlooked
copywriting strategy
that's transforming B2B
sales results

**Professional platforms require
authority and credibility.**

**Share data, frameworks, and
business insights rather than
casual excitement or
entertainment.**

Example:

Last night, I met someone who made his company go from \$20,000 a year to \$1.6 million a year from LinkedIn alone in four years.

He introduced a few tools for LinkedIn, one of which was Dripify.

Platform Type #4

Direct Platforms

Convince me this is worth my time and money

Direct Platform Examples:

- Email marketing
- Landing pages
- Sales pages
- Product pages

Intent level is **very high**.

People are actively seeking solutions. They're not looking for entertainment or advice—they want to be convinced your product is worth their investment.

Direct Platform Structure:

1. **Problem:** Agitate their current pain points
2. **Solution:** Position your offer as the answer
3. **Proof:** Testimonials and guarantees that it works

Direct Platform Do's:

- Address objections thoroughly
- Use logical and emotional appeals
- Multiple testimonials
- Strong guarantees

Direct Platform Don'ts:

- Weak headlines
- Feature-focused copy
- No social proof
- Weak call-to-action

Direct Platform Copy Examples

BAD EXAMPLE

Learn how to create a course on Udemy.

GOOD EXAMPLE

How to generate passive income on Udemy — even if you've never created a course before.

Remember: The three-brain system still applies to all platforms. Crocodile brain filters first, midbrain feels, neocortex justifies. But the execution changes based on platform context.

Implementation

The Quick Adaptation **System**

3 steps to adapt any message for any platform

Quick Adaptation System:

1. Step 1: Identify platform category
(Entertainment, Social, Professional, Direct)
2. Step 2: Match intent level (Low, Medium, High)
3. Step 3: Choose appropriate action and tone

Platform Intent Matching Guide

Platform	Intent Level	Primary Action
Entertainment	Very Low	Link in bio
Social	Medium	What do you think?
Professional	High	Comment for details
Direct	Very High	Get instant access

Platform Copy Length Guidelines:

- **Entertainment:** 50-100 words
- **Social:** 100-300 words
- **Professional:** 200-500 words
- **Direct:** 500+ words

Platform Tone Adaptation Matrix

Platform	Tone	Word Choice Example
Entertainment	Casual + Exciting	Check this out
Social	Conversational + Helpful	Here's what I learned
Professional	Authoritative + Approachable	Strategic approach
Direct	Confident + Convincing	This solves your problem
